

A SINGLE ACT OF KINDNESS CAN SHAPE A CHILDHOOD

The Impact of Michael Josephson's Support for ACT

Behind every actor in the spotlight is a reality few see: parents juggling unpredictable schedules, inconsistent income, and the pressure to give their children stability. For many, the fear isn't missing work; it's their children missing out on opportunities their peers enjoy.

School trips, sports teams, after-school clubs, and summer programmes often become out of reach when income depends on sporadic contracts.

Dr Michael Josephson's support changes this. His generosity ensures children can join clubs, attend camps, explore passions, and build confidence; without the burden of financial strain.

This impact stretches beyond the stage and into classrooms, playgrounds, studios, and sports fields, giving children the stability and belonging they deserve.

By supporting actor-parents, Dr Michael Josephson is helping build a more equitable future for actors and the creative communities they inspire.

ACT received two donations from Dr Josephson - £10,000 in 2022 and £20,000 in 2023.

ACT'S IMPACT ENABLED BY MICHAEL:

100

children funded for regular extra curricular activities.

60%

increase in children's confidence or wellbeing.

50

families supported through subsidised or fully covered places.

30

number of days out and special experiences funded.
