

*More than just a place to stay*

We are incredibly grateful for the £31,560 donation from the MJ Ball 2022 and Michael Josephson. This generous support enabled us to complete a major renovation to our Hall, Stairs, Landings & Entrance, that we could not have undertaken otherwise.

Previously, these areas of our hostel were dark and dated, with old woodchip walls and worn carpet, that did not reflect the welcoming nature of Contact Hostel. The funding allowed us to brighten these areas with freshly plastered walls and new flooring, creating a much more inviting space.

We were also able to replace our entrance door, making the house more accessible and welcoming, while also improving heat retention and helping the home feel warmer.

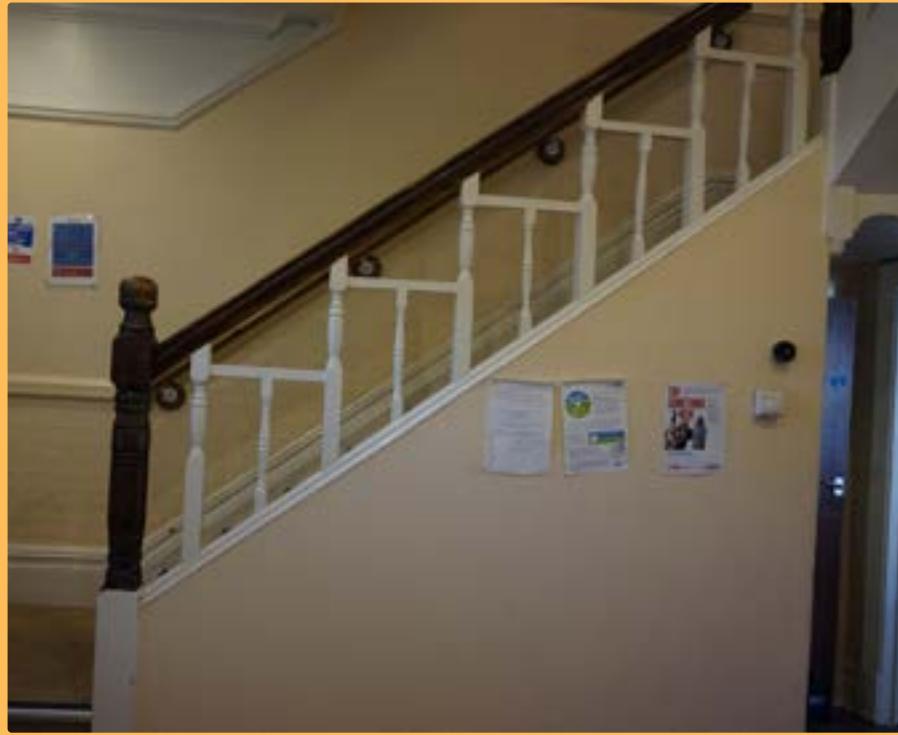

Contact Hostel is a safe and supportive place for girls facing homelessness. Thanks to this support, our communal areas now truly reflect that warmth and care. Thank you to all involved in the MJ Ball 2022 for making this transformation possible!
